evan@evntylr.com ❖ (360) 904-2901 ❖ San Luis Obispo, CA/Vancouver, WA

SUMMARY

Motivated Computer Science student at California Polytechnic State University with a strong foundation in software development. Eager to leverage experience in Python, Java, and React to contribute to innovative projects in technology. Passionate about user experience and efficient UIs. Seeking to apply strong problem-solving skills and collaborative mindset to drive impactful solutions while gaining hands-on industry experience.

EDUCATION

California Polytechnic State University

San Luis Obispo, CA

Bachelor's of Science in Computer Science

Expected Graduation, June, 2027

- Currently pursuing courses in systems programming, algorithms, and software development.
- Interested in pursuing a minor in Entrepreneurship

WORK EXPERIENCE

Hovn

June 2025-Present

Software Development Intern

Remote

- Contributed to full-stack software development, collaborating on both front-end and back-end features for the Hovn.app platform.
- Designed and implemented new features, fixed bugs, met with and provided support to customers, and optimized existing code to improve user experience and platform performance.
- Collaborated closely with co-founders and developers to strategically plan, prioritize, and deliver key features that address customer needs and drive the Hovn.app product roadmap forward.

Manage Incorporated

June 2025-September 2025

Intern

Remote

- Worked on developing a mobile application to enable secure integration and communication with IBM Series i systems.
- Implemented robust authentication protocols and user management features to ensure security for customers. Designing and building a configurable push notification system to alert users to urgent events and updates.
- Utilized React Native, Node.js, and IBM i technologies to deliver a seamless cross-platform experience.

Taylor Instruction LLC

May 2023-Present

Founder

Vancouver, WA

- Operate an ARC/AHA-authorized training site, building and maintaining scheduling, registration, and certification workflows that serve public and private classes across WA and CA.
- Implemented automations (Stripe, email/SMS reminders, roster/checklist tracking, and sub-instructor compliance tracking) to decrease no-shows and support a consistent, user-friendly enrollment experience.

Skills

- Strong interpersonal and communication skills developed through teaching and training experiences.
- Proven leadership in team settings, including managing operations and customer service.
- Excellent problem-solving abilities, especially under pressure.
